CEO Message

**"we seek to support children's learning and development through our educational toys, nurturing young minds and guiding them towards a promising and prosperous future."**

Peter Handstein  
Founder & CEO

We've entered a time in which changes and unexpected hurdles have become daily factors affecting almost every aspect of our lives. What hasn't changed, however, is the common wish of all parents and caregivers to secure a better tomorrow for our children – education is a key component to making that happen!

At Hape, we seek to support children's learning and development through our educational toys, nurturing young minds and guiding them towards a promising and prosperous future. In light of these recurring beliefs, we are proud to announce that, due to the progress made over the last year and to our price-modifying strategy that has made our products more affordable, our play-based learning tools and products have reached more children and households than ever before.

2023 was a landmark year for the Hape Group, and we achieved astonishing growth. Altogether, we have experienced an average growth rate of over 20% over the last three years, and the success of our company is the direct result of the performances and achievements of our employees worldwide.

## CEO Message

### Resilience Through Diversification

Since our inception, our ability to control the manufacturing process from start to finish, full control of our in-house manufacturing facilities and technical strength and expertise have been amongst our most important assets. In recent years and amid economic and geopolitical challenges, having control over the entire supply chain operation has helped us to stay competitive and remain resilient to future disruption.

In 2023, we continued prioritizing the stability of our supply chain, taking further steps to diversify and localize our manufacturing operations. To achieve this, we've made strategic investments into three additional manufacturing units in Romania, and devised plans for future investments in production sites across Central and South America. Our long-term business strategy combined with our existing setup of global offices and local partners around the world will help us to build redundancy into our supply chain, bringing our products closer to the final consumer.

Hape unveils its new look after almost two years of careful planning, designing, testing and implementation and will finally launch the newly refreshed Hape brand to the world. We have strategically modernized our existing brand's identity, giving it a completely fresh look while retaining our core essence and values.

Our Hape logo is just one of the elements that we've decided to give a fresh look,

and over the next few months, you'll discover cutting-edge colors, graphics, images and communication – adding further clarity to our mission, vision and values.

These noticeable changes in our brand's identity will accurately reflect what we stand for as a company and what we want our brand to communicate.

### Customer Experience Remains Our Top Priority

During the year, we have continued to invest in providing memorable brand experiences for our customers around the world. We have achieved this through various projects and events that created safe and communal public spaces in which children and families could engage in open-ended play. While these projects are a great way for us to engage and connect with our customers, they also generate heightened visibility for our brand.

The experiences gained through these projects have been extremely valuable to us, establishing a foundation for long-term and sustainable growth within this new area of service.

Ultimately, it has shown us once again, that when you keep your customers at the top of mind and at the center of everything you do, you can thrive even in uncertain times.

# Love play, learn.

Play is at the heart of everything we do. Children love to play, and with our toys, they gain valuable life skills. When children play with our toys, they learn so much more about themselves and the world around them.

# Quadrilla

Derived from the combination of two German words, 'Quader' and 'Rille,' meaning 'bricks' and 'slots,' which are also the main components of the game, Quadrilla's unique marble run system is described as 'a lot like coding' (Wall Street Journal) and serves as a perfect platform for STEAM education.

# Role Play

Our Pretend Play toys are meticulously designed to simulate real-life situations. Here, children can take on various roles, experience different careers, and create their own adventures in their imaginary worlds. Engaging in these scenarios allows children to develop their imagination and creative thinking while learning social and emotional skills that build confidence when playing these different roles.

# Hape Playland

## A journey into Hape's retail solution

In the broad panorama of toys we want to stand out for our quality and attention to design, showing our range in new and inspiring ways.

The impression we want to give is:

Hape is playful, innovative, friendly, affordable, passionate and - more than anything - willing to make the world a playful place where children will never stop learning.

## Flexibility and adaptability

Hape Playland has a flexible design based on regular grid systems that enables it to adapt to many different store layouts and dimensions.

One Hape Playland can go from a minimum recommended size of 5 sqm /54 sqft to areas as big as 50 sqm /540 sqft.

To get your own Hape Playland, please contact our local sales.

The following are some examples of different Hape Playland sizes.

**6 sqm / 64 sqft**

- x1 (Red shelving unit)
- x1 (White shelving unit)
- x1 (Grey archway)
- x1 (Red circular sign)
- x1 (Green mat)

**18 sqm / 193 sqft**

- x2 (Red shelving unit)
- x1 (White shelving unit)
- x2 (Red shelving unit)
- x1 (White shelving unit)
- x1 (Grey archway)
- x1 (Red circular sign)

# The best result in a few simple steps

## Key features

- **More interaction:** demos, play tables, and displays to boost the fun and interactions.
- **Immersive shopping experiences:** the attractive graphics and decorations will provide children a more immersive shopping experience.
- **More traffic:** thanks to its new fresh look that resembles a play area, Hape Playland will generate more and more traffic.

- **Increase conversion rate:** by strongly communicating our passion and values, Hape Playland will increase the conversion rate.
- **Memorable experiences:** nothing makes parents happier than looking at their children having fun and learning.

Identify the area for Hape Playland.

Choose the categories to sell and displays to use.

Design the layout and the area.

Implement and furnish the area.

Enjoy a new and exciting Hape Playland!

Please contact our local sales for more. Hape Playland Manual is available upon request.

# Brands

Over the past 37 years Hape has grown into a leading Educational Wood toy brand. To continue this growth we are introducing the following brands to expand our reach to new age groups, categories and seasonal products.

All brands will be available domestically, can be combined together and ship from same Wisconsin based location.

PolyM is a construction toy made using soft material under German workmanship. These round-edge bricks are not only super safe to little hands, but also hygienic and easy to maintain.

DO – U – PLAY Games are a 2024 launch that takes aim at the popular outdoor gaming market. With focus on games, we are launching product from \$24.99. This line is open for all customers across all channels. Product can be purchased domestically or via import.

Trelines targets active outdoor play consumers who love Ziplines, Swings and Outdoor apparatus. This product is sold in all active channels in our US marketplace and open for all customers. Product can be purchased both domestic & import.

Science Can is exclusively distributed in the US offline marketplace by Hape. This science-based STEAM focused product line helps to foster and develop that natural curiosity in the sciences and STEM/STEAM product needs.

ZZZMoon offers exciting stories not only to hear but also to see. The innovative bed-time devices combines audio-visual learning with relaxation and offer many fun and educational story adventures for children aged 3 to 6 years.

PolyM® building bricks are produced under international standards of safety and are regularly tested by independent testing institutes. Originally built by a father – Anton Meyer, German engineer, and founder of PolyM® – for his beloved daughters, it is fitting that the PolyM® building bricks reach new generations with each passing decade.
