GT3 duel at the highest level
The Carrera DIGITAL 124 Set “Reach for Gold” brings ambitious GT3 racing to your home track. Featuring the Porsche 911 GT3 R “Wright Motorsports, No. 24” and the Audi R8 LMS GT3 evo II “Uno Racing Team, No. 16,” two established racing concepts go head-to-head. The Porsche relies on its rear-engine layout for precise balance and consistent performance, while the Audi delivers V10 power and aerodynamic enhancements for maximum dominance. Realistic front and rear lighting, including brake lights, add to the authentic presence of both vehicles. The 8.0-meter track, with dual switches, technically challenging corners, and high-speed sections, tests both driving skill and tactical sense. Thanks to the CONTROL UNIT and WIRELESS 2.0 hand controllers, motorsport fans enjoy full freedom of movement, precise control, and thrilling races all the way to the finish line.

Mario Kart™ - Mario vs. Peach

NI

The world-famous plumber and his princess on the race track! The Mario Kart™ stars have been racing around since 1992 and have long won the hearts of both young and old. Super Mario™ and Princess Peach™ also look fantastic in their slot cars on a scale of 1:50. With the Nintendo® license, even the smallest details have been thought through. The Carrera cars tear around the track covering a total distance of 2.4 meters/7.87 ft. Small children's hands can hold the ergonomically shaped controllers securely and with ease. Four type C batteries are required to control the cars. The Carrera FIRST race track is not only an absolute eye-catcher because of its child-friendly colour, but also because of the theme-specific decorative elements that give the race track that special something. Who do you think will emerge victorious in the race? Can Mario™ prevail over Princess Peach™ or will the Princess be the first to finish?

PAW PATROL - On the Track

PP

3.05 x 1.48 ft. 7.87 ft.

Ready for the Rescue Mission:
PAW Patrol Takes Off! The youngest racers can now join the brave dogs Chase and Marshall in their new adventure. The Carrera FIRST "PAW Patrol - On the Track" playset brings the heroes of PAW Patrol straight into the kids' room. On the 2.4-meter track, Chase and Marshall race with their emergency vehicles through exciting corners, fast straights, and tricky sections. A fun spinner adds extra action, letting children experience what it feels like to be part of a rescue mission. Colourful decorative elements from the PAW Patrol series create an authentic atmosphere, pulling the little pilots right into the adventure. The set is battery-operated, equipped with child-friendly controllers, ensuring playful fun.

Spidey - It's Spidey Time!

MA

3.05 x 1.48 ft. 7.87 ft.

Racing fun with Spidey and friends.
Young Peter Parker (Spidey for short) is already a popular superhero, but in the kids' series 'Spidey and his Super Friends' he quickly realises it's even easier to help people with friends at your side. In the Carrera FIRST set 'It's Spidey Time', he's joined by his buddy Miles Morales, alias Spin, as they race around the 2.4-metre/7.87 ft. track. Children aged 3 years and up race around a battery-powered track equipped with a spinning top – for even more fun. Numerous decorative elements with designs from the series adorn the track, creating a genuine Spidey atmosphere in bedroom motordromes.

Carrera® WIRELESS 2.0

WIRELESS RACING THRILLS WITH 2.4-GHZ RADIO TECHNOLOGY

The new and innovative Carrera Wireless 2.0 system revolutionises the racetrack experience with a range of exciting benefits for car racing enthusiasts. Wireless technology eliminates the problem of tangled cables, so Carrera drivers enjoy a more convenient and realistic driving experience. The Wireless 2.0 system's 2.4-GHz radio technology guarantees interruption-free action at ranges of up to 15 metres, as well as a stable connection for unrestricted freedom of movement around the racetrack.

The Wireless 2.0 system replaces sensitive lithium batteries with standard (or rechargeable*) AAA 1.5-V batteries.

There's also a particularly advantageous, cost-effective upgrade option to the new Wireless 2.0 system for Carrera DIGITAL 124/132 racetracks with wired hand controllers. This means there are no obstacles to exciting race action with friends and family – and no more tangled cables!

In summary, the Carrera Wireless 2.0 system promises a stable and versatile wireless racing experience that takes high-speed track action to a whole new level!

*Not included.

20010120

Wireless 2.0 Set Duo for Carrera DIGITAL 124/132

2 Wireless 2.0 speed controllers, 1 Wireless 2.0 receiver, instructions. 2 AAA 1.5 V batteries required (not included). Can be used to upgrade Carrera DIGITAL 124/132 sets with cable speed controllers.

Information on the compatibility of Carrera Wireless 2.0 with the previous 2.4-GHz Wireless+ system: Wireless 2.0 hand-held controllers can only be operated with a Wireless 2.0 receiver. The previous Wireless+ hand-held controllers only work with Wireless+ receivers. Nevertheless, parallel operation is possible if both a Wireless 2.0 receiver 20010122 and a Wireless+ receiver 20010112 are connected to the Carrera Digital Control Unit. However, the addresses of the vehicles must not be assigned twice.

Split TIME MEASUREMENT

The Carrera Check Lane makes it instantly possible for Carrera drivers to measure their intermediary times. Placed at any point, the Carrera Check Lane measures the drivers' intermediate times. Just like in real auto racing, the Carrera drivers instantly have their complete driving behavior on the course under their control.

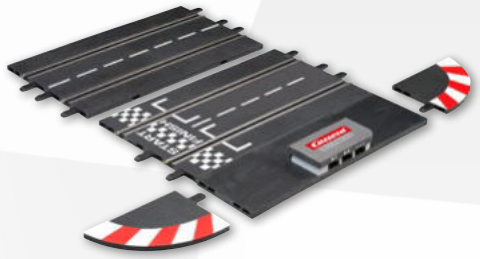

ENGINE MEASUREMENT

The acceleration of a Carrera car can be measured precisely, through the installation of several Check Lanes in a row. Thanks to the Carrera Check Lane, not only the final result, but also the driving behavior throughout the entire race counts!
(only in connection with Carrera App Connect and the Carrera Race App).

2,4GHz Mario Kart™ Pipe Kart, Bowser

NI

Bowser dominates the track in the Pipe Kart! Things are about to get scary! Bowser appears with his new Mario Kart™ Pipe Kart and joins the race alongside Mario, Luigi, and Peach, only to race off at a maximum speed of 9 km/h - 5.6 mph. Thanks to the official licence, the villain looks almost identical to his video game counterpart. With its unique Pipe Kart design of almost 21 cm - 8.3 inch long and full-function controls, every race becomes an intense experience. Whether indoors or outdoors, Bowser shows what it means to leave the competition behind. Fans of all ages from 6 and up can face off in duels against Mario's greatest rival for up to 30 minutes, before the 3.2V 320mAh LiFePo4 battery needs a charging break of about 50 minutes.

2,4GHz Mario Kart™ Circuit Special, Mario

NI

Boredom is a thing of the past: Here comes Mario in his speedster! The moustachioed, rather short hero Mario, dressed in his overalls and peaked cap, can now rule the playroom in his new racing machine. The blue and white race kart makes quite an impact with its length of approx. 25 cm/9.1 in.! With speeds of up to 10 km/h - 6.2 mph, Mario lets the tires squeal. Thanks to the 2.4GHz full function transmitter and an extra durable and especially reliable 3.2V-700mAh LiFePo4 battery, Mario can enjoy up to 20 minutes of racing with his friends. The vehicle is "ready to run" and so guarantees racing fun from the very first instant.
